Email: wimukthi.21@cse.mrt.ac.lk

PROFILE SUMMARY

- Experienced **Full Stack Developer** with strong hands on system designing and development skills.
- Backend development using Java Spring Boot framework and RESTful APIs.
- Frontend development using React and Next.js for responsive user interfaces.
- Experience with SQL databases for data storage and optimize query with stored procedures and transactions.
- Experience across the full software development life cycle and version controlling.

EDUCATION

University of Moratuwa *2022 – Present*
B.Sc. Engineering Honours
Computer Science and Engineering
CGPA: 3.51 / 4.00

Science College, Matale *Nov 2020*
Physical Science Stream
G.C.E. Advanced Level Results:
Grade: 3 A's (Z-score: 2.2789)
DR: 4th (Matale) **IR:** 376th

EXPERIENCE

AURA Digital Labs

May 2025 – Dec 2025

Software Engineer

- Worked as a Full Stack Developer on multiple software projects.
- Frontend and backend engineer for AI/ML-based applications.

Technologies: React, Next.js, Node.js, Express, MongoDB, Firebase, Flask

Scienter Technologies (Pvt) Ltd

Dec 2024 – May 2025

Software Engineer Intern (Full Stack Developer)

- Developed financial web applications using Angular, .NET, and SQL.
- Implemented MSSQL stored procedures and transactions for complex business logic.
- Contributed across the full software development life cycle and Git based version control.

SKILLS

- **Programming Languages:** Java, JavaScript
- **Web Development:** React, Next.js, Spring Boot
- **Mobile Development:** React Native
- **Databases:** SQL, MongoDB
- **Tools:** Keycloak, Flyway, Resilience4j
- **Cloud Platforms:** AWS, Vercel, Render
- **DevOps:** Docker, CI/CD, GitHub Actions
- **Version Control:** Git, GitHub
- **IDEs:** Visual Studio Code, IntelliJ IDEA

PROJECTS

GNN based Vector borne disease forecasting (Final Year Project) Jul 2025 - Apr 2026

GNN, Python

- Developed a Spatial Temporal Graph Neural Network (ST-GNN) model to predict dengue cases across Sri Lankan districts.
- Collected and processed epidemiological and meteorological data for model training.
- Experiment with different GNN architectures to improve prediction performance.
- Compared GNN results against benchmark machine learning models.

Microservices Online Store Application (Backend) [\[GitHub\]](#) Nov 2025 – Dec 2025

Java Spring Boot, SQL, Docker, keycloak, Flyway, Resilience4j

- Designed and developed a backend system for an online store using a microservice architecture.
- Implemented RESTful services using Java Spring Boot for core business functionalities.
- Used Flyway for database versioning and automated database schema migration.
- Implemented fault tolerance using Resilience4j with circuit breaker patterns.
- Containerized microservices and supporting services using Docker and Docker Compose.

Sanchaara (Travel Companion) [\[GitHub\]](#) Dec 2024 – May 2025

Java Spring Boot, Flutter, SQL, MongoDB, Docker

- Developed a Flutter based mobile application to help travelers and foreigners discover events easily.
- Designed and developed a microservice architecture using Java Spring Boot.
- Implemented synchronous inter service communication using Spring WebFlux.
- Implemented asynchronous inter service communication using Apache Kafka.
- Secured services using Spring Security authentication.(API Gateway)
- Containerized each service using Docker.

Interactive Library Management System [\[GitHub\]](#) Feb 2024 – May 2024

React, Node.js, MySQL

- Developed a web based library management system using a monolithic architecture.
- Designed and implemented the complete MySQL database schema.
- Built RESTful APIs using Node.js with secure JWT authentication mechanisms.

LICENSES AND CERTIFICATIONS

- | | |
|---|----------|
| • Introduction to Front-End Development (Meta) Certificate | Nov 2023 |
| • Introduction to Back-End Development (Meta) Certificate | Nov 2023 |
| • Introduction to Databases for Back-End Development (Meta) Certificate | Dec 2023 |
| • Version Control (Meta) Certificate | Dec 2023 |
| • Programming with JavaScript (Meta) Certificate | Jan 2024 |
| • Advanced React (Meta) Certificate | Jan 2024 |
